Most Important Questions

INSTRUCTIONS

1. Understand the Concepts

Go through the basic concepts related to each question before practising.

2. Practice Regularly

Solve these important questions and their variations for better understanding.

3. Focus on Exam Pattern

These questions are selected as per previous year papers and latest syllabus.

4. Attempt Within Time Limit

Practice under timed conditions to improve speed and accuracy.

5. Revise and Self-Check

Review your answers, identify weak areas and revise regularly to score higher.

Learn • Practice • Improve • Succeed

YOUR HARD WORK PAYS OFF!

Computer Networks — Most Important Questions

Unit I - Introduction to Networking

- **Answers in one or two lines (1 mark questions)**

1. What is a Computer Network?
2. State the need of a Computer Network.
3. What is a Communication Protocol?
4. What is LAN?
5. What is MAN?
6. What is WAN?
7. Name the types of computer networks.
8. What is Network Topology?
9. Name the types of network topologies.
10. What is Star Topology?

- **Short Answer Questions (3 marks questions)**

1. Explain the need and importance of Computer Networks.
2. Explain Communication Protocol.
3. Explain LAN, MAN and WAN.
4. Explain Ring, Bus, Star and Mesh topologies.
5. Differentiate between LAN, MAN and WAN.
6. Differentiate between different network topologies.

- **Long Answer Questions (6 marks questions)**

1. Explain different types of Computer Networks — LAN, MAN and WAN — in detail.
2. Explain Ring, Bus, Star and Mesh Network Topologies with diagrams.
3. Explain Computer Networking, its need and Communication Protocol.

Unit II - Network Devices & OSI Model

- **Answers in one or two lines (1 mark questions)**

1. What is a Repeater?
2. What is a Hub?
3. What is a Switch?
4. What is a Bridge?
5. What is a Router?
6. What is OSI?
7. How many layers are present in the OSI model?
8. Name the seven layers of the OSI model.
9. What is the function of the Physical Layer?
10. What is the function of the Application Layer?

- **Short Answer Questions (3 marks questions)**

1. Explain Repeater, Hub, Switch, Bridge and Router.
2. Explain the OSI Reference Model.
3. Explain the functions of any three OSI layers.
4. Explain the seven layers of the OSI model briefly.

- **Long Answer Questions (6 marks questions)**

1. Explain the OSI Reference Model and functions of all seven layers.
2. Explain Repeater, Hub, Switch, Bridge and Router with their functions.
3. Explain the seven layers of OSI model with a neat diagram.

Unit III - Transmission Media, Switching & Multiplexing

- **Answers in one or two lines (1 mark questions)**

1. What is Transmission Media?
2. What is Guided Media?
3. What is Unguided Media?
4. What is a Twisted Pair?
5. What is Coaxial Cable?
6. What is Fiber Optics?
7. What is Radio Wave?
8. What is Micro wave?
9. What is Infrared?
10. What is Switching?
11. What is Circuit Switching?
12. What is Packet Switching?
13. What is Multiplexing?
14. What is FDM?
15. What is TDM?

- **Short Answer Questions (3 marks questions)**

1. Explain Guided Transmission Media.
2. Explain Twisted Pair, Coaxial Cable and Fiber Optics.
3. Explain Unguided Transmission Media.
4. Explain Radio Waves, Microwaves and Infrared.
5. Explain Circuit, Message and Packet Switching.
6. Explain Frequency Division Multiplexing (FDM) and Time Division Multiplexing (TDM).
7. Differentiate between Guided and Unguided Media.

- **Long Answer Questions (6 marks questions)**

1. Explain Guided and Unguided Transmission Media in detail.
2. Explain Twisted Pair, Coaxial Cable and Fiber Optics with their characteristics.
3. Explain Circuit, Message and Packet Switching.
4. Explain FDM and TDM with suitable diagrams.
5. Compare different transmission media.

Unit IV - Internet & Protocols

- **Answers in one or two lines (1 mark questions)**

1. What is the Internet?
2. State any two applications of the Internet.
3. What is TCP/IP?
4. What is FTP?
5. What is HTTP?
6. What is a URL?
7. What is an E-mail Address?
8. What is WWW?
9. What is a Web Browser?
10. What is a Search Engine?
11. What is a wired Internet connection?
12. What is a wireless Internet connection?

- **Short Answer Questions (3 marks questions)**

1. Explain the history of Internet.
2. Explain applications of Internet.
3. Explain wired and wireless Internet connections.
4. Explain TCP/IP, FTP and HTTP.
5. Explain URL and E-mail Address.
6. Explain WWW and Web Browsers.
7. Explain Search Engines..

- **Long Answer Questions (6 marks questions)**

1. Explain the history and applications of the Internet in detail.
2. Explain TCP/IP, FTP and HTTP protocols.
3. Explain URL, E-mail Address, WWW, Web Browsers and Search Engines.
4. Explain wired and wireless Internet connections.
