Most Important Questions

INSTRUCTIONS

1. Understand the Concepts

Go through the basic concepts related to each question before practising.

2. Practice Regularly

Solve these important questions and their variations for better understanding.

3. Focus on Exam Pattern

These questions are selected as per previous year papers and latest syllabus.

4. Attempt Within Time Limit

Practice under timed conditions to improve speed and accuracy.

5. Revise and Self-Check

Review your answers, identify weak areas and revise regularly to score higher.

Learn • Practice • Improve • Succeed

YOUR HARD WORK PAYS OFF!

Fundamentals of Computer

Unit I - Introduction to Computer

- **Answers in one or two lines (1 mark questions)**

1. Define Computer.
2. State any two characteristics of a computer.
3. What is a computer generation?
4. How many generations of computers are there?
5. Which technology was used in the First Generation?
6. Name the basic units of a computer.

- **Short Answer Questions (3 marks questions)**

1. Explain the characteristics of computers.
2. Explain the uses of computers.
3. Explain the generations of computers briefly.
4. Explain the basic block diagram of a computer.

- **Long Answer Questions (6 marks questions)**

1. Explain all generations of computers in detail.
2. Draw and explain the basic block diagram of a computer.
3. Explain the characteristics and uses of computers.

Unit II - Memories

- **Answers in one or two lines (1 mark questions)**

1. What is Primary Memory?
2. What is RAM?
3. What is ROM?
4. Name the types of RAM.
5. Name the types of ROM.
6. What is Cache Memory?
7. What is an SSD?

- **Short Answer Questions (3 marks questions)**

1. What is Primary Memory ? Explain RAM and its types.
2. What is Primary Memory ? Explain ROM and its types.
3. What is Cache Memory ? Explain Cache Memory.
4. What is Memory ? Differentiate between Primary and Secondary Memory.
5. Write a short note on HDD, SSD and Pen Drive.

- **Long Answer Questions (6 marks questions)**

1. Explain RAM and ROM with their types in detail.
2. Explain Primary Memory and Secondary Storage in detail.
3. Explain Cache Memory, Hard Disk, SSD and Pen Drive.

Unit III - I/O Devices

- **Answers in one or two lines (1 mark questions)**

1. What is an Input Device?
2. What is an Output Device?
3. What is VDU?
4. What is an LCD?
5. What is LED?
6. What is an Impact Printer?
7. What is a Non-impact Printer?
8. What is a Modem?

- **Short Answer Questions (3 marks questions)**

1. What is an Input Device ? Explain Keyboard, Mouse and Scanner.
2. What is Monitor ? Explain VDU, LCD and LED.
3. What is Printer? Differentiate between Impact and Non-impact Printers.
4. What is Printer? Explain different types of printers.
5. What is Modem ? Write a short note on Modem.

- **Long Answer Questions (6 marks questions)**

1. Explain different input devices — Keyboard, Mouse and Scanner.
2. Explain Impact and Non-impact Printers with examples.
3. Explain output devices — Touch Screen, VDU, LCD and LED.
4. Explain different types of printers and their applications.

Unit IV - Operating System

- **Answers in one or two lines (1 mark questions)**

1. Define Operating System.
2. State any two functions of OS.
3. What is Batch Mode?
4. What is Multiprogramming?
5. What is Timesharing?
6. What is a Real Time OS?
7. What is a Distributed OS?
8. What is Booting?

- **Short Answer Questions (3 marks questions)**

1. Explain functions of Operating Systems.
2. Explain Batch Mode and Multiprogramming.
3. Explain Timesharing.
4. Explain Online Real Time OS.
5. Explain Distributed OS.
6. Explain Booting Process.

- **Long Answer Questions (6 marks questions)**

1. Define Operating System and explain its functions.
2. Explain different types of Operating Systems in detail.
3. Explain Batch Mode, Multiprogramming and Timesharing OS.
4. Explain the Booting Process in detail.

TOP QUESTIONS — DO NOT SKIP

Unit I: Generations + Block Diagram

Unit II: RAM/ROM + Types + Primary/Secondary Memory

Unit III: Input Devices + Impact/Non-impact Printers

Unit IV: Functions of OS + Types of OS + Booting Process
