-  Subject-wise Papers
-  Year-wise Collection
-  Useful for Exam Preparation

**Computer Science/Computer Application(R)/Computer Application (Voc)/
Data Analytics/Information Technology/Data Science and Analytics
OOP with C++**

P. Pages : 1

Time : Two Hours

AK - 4565

Max. Marks : 30

- Notes :
1. All questions are compulsory.
 2. Draw neat diagrams wherever necessary.
 3. Assume suitable data wherever necessary.
 4. Illustrate your answer with the help of neat sketches wherever necessary.

1. Write answers in one or two lines Solve **any six** 6
 - i) What is an object?
 - ii) What is inheritance?
 - iii) What is abstraction
 - iv) What is a derived class?
 - v) What is run time Polymorphism
 - vi) What is dynamic binding?
 - vii) What is destructor?
 - viii) What is function arguments?
2. Answers in short **any two** of the following (3 marks each) 6
 - a) Give the difference between Structured and Object Oriented Programming.
 - b) What is Class and Object? Explain with suitable example.
 - c) How to define class and create objects? Explain with suitable example
 - d) What is OOP? Explain the features of OOP.
3. Explain in detail **any one** of the following. 6
 - a) What is function argument? Explain default argument with suitable example.
 - b) What is Copy Constructor? Explain with suitable example.
4. Answer in short **any two** of the following (3 marks each) 6
 - a) Explain function access specifiers with suitable example.
 - b) What is inheritance? Explain Hierarchical inheritance.
 - c) Explain Multilevel inheritance with suitable example.
 - d) What is mean by Objects as Function Arguments? Explain.
5. Explain in detail **any one** of the following 6
 - a) What is virtual function? Explain pure virtual function suitable example
 - b) What is Operator Overloading? Explain the rules for operator overloading with suitable example
